SUMMARY

Passionate B.Tech CSE student with hands-on experience building full-stack web applications using the MERN stack. Adept at crafting responsive, accessible UIs and integrating cloud services. Eager to contribute to production-grade projects.

EDUCATION

- Nalanda Institute of Technology** 2023 – 2027
Bachelor of Technology – Computer Science and Engineering SGPA: 8.86
- Anandapur College** 2021 – 2023
Higher Secondary Education (12th) Percentage: 63%
- Laxmidhar GOVT. High School** 2021
Matriculation (10th) Percentage: 80%

PERSONAL PROJECTS

- Resume Builder Website** 03/2026 – ongoing
A resume builder website enabling users to create custom resumes easily.
 - Developed a full-stack resume builder with real-time preview and dynamic section rendering using React state management.
 - Implemented Firebase Authentication and Firestore to securely manage user data and enable persistent storage.
 - Integrated PDF export functionality to generate ATS-friendly resumes with optimized formatting.
 - Designed a responsive UI with Tailwind CSS, ensuring cross-device compatibility and improved user experience.
- Personal Portfolio Website** 12/2025 – 01/2026
A personal portfolio to showcase skills and projects with a modern design.
 - Designed and developed a fully responsive personal portfolio using React and Vite, featuring smooth parallax scrolling, scroll-triggered animations, and a dynamic dark/light theme toggle.
 - Architected modular SCSS with custom variables and mixins for consistent theming, enabling seamless switching between dark and light modes across all components.
 - Optimized bundle size and load performance using Vite's code-splitting and lazy loading, achieving fast initial page loads across devices.
 - Ensured WCAG-compliant accessibility and cross-browser responsiveness with semantic HTML and mobile-first CSS breakpoints.

TECHNICAL SKILLS AND INTERESTS

Languages: Java, Python, JavaScript

Frontend: React, HTML, Tailwind CSS, SCSS, Semantic HTML

Backend & Frameworks: Node.js, Express.js, REST APIs

Cloud/Databases: MongoDB, Google Firebase (Auth & Firestore)

Tools: Git, GitHub, Vite, Modular CSS

Concepts: Data Structures, OOP, DBMS, ATS Optimization

Areas of Interest: Exploring emerging web technologies, Open-source contributions, Creating websites & mentoring juniors
