SUMMARY

Passionate B.Tech CSE student with hands-on experience building full-stack web applications using the MERN stack. Adept at crafting responsive, accessible UIs and integrating cloud services. Eager to contribute to production-grade projects.

EDUCATION

- Nalanda Institute of Technology** 2023 – 2027
Bachelor of Technology – Computer Science and Engineering SGPA: 8.86
- Anandapur College** 2021 – 2023
Higher Secondary Education (12th) Percentage: 63%
- Laxmidhar GOVT. High School** 2021
Matriculation (10th) Percentage: 80%

PERSONAL PROJECTS

- StreamVault** 2026 – ongoing
A full-stack video sharing platform with creator studio dashboard.
 - Built a full-stack video sharing platform using React, Node.js, Express, and MongoDB, supporting video uploads, playback, and user channels.
 - Implemented JWT-based authentication with silent token refresh for persistent, secure user sessions without repeated logins.
 - Integrated Cloudinary for scalable video and thumbnail storage, handling uploads and media delivery efficiently.
 - Developed a complete creator studio dashboard using TanStack Query for optimized data fetching, caching, and state synchronization.
- Personal Portfolio Website** 12/2025 – 01/2026
An immersive 3D developer portfolio with interactive animations.
 - Built an immersive personal portfolio using React, React Three Fiber, and Three.js to render interactive 3D scenes.
 - Implemented smooth, scroll-driven animations and transitions using GSAP and Framer Motion for a polished user experience.
 - Designed a fully responsive layout with Tailwind CSS, ensuring consistent visuals and performance across devices.
 - Optimized 3D asset loading and rendering performance to maintain smooth frame rates on lower-end devices.

TECHNICAL SKILLS AND INTERESTS

Languages: Java, Python, JavaScript

Frontend: React, React Three Fiber, Three.js, Tailwind CSS, SCSS, HTML, Semantic HTML

Animation/UI: GSAP, Framer Motion

State & Data Fetching: Zustand, TanStack Query

Backend & Frameworks: Node.js, Express.js, REST APIs, JWT Authentication

Cloud/Databases: MongoDB, Google Firebase (Auth & Firestore), Cloudinary

Tools: Git, GitHub, Vite, Modular CSS

Concepts: Data Structures, OOP, DBMS, ATS Optimization

Areas of Interest: Exploring emerging web technologies, Open-source contributions, Creating websites & mentoring juniors
